FEATURES & DETAILS

Our USA solid rubber bumper plate set is a winning combination of quality and versatility. It features 2 each of every size USA branded bumper (GBO-SBP) we carry. The inclusion of lighter plates in the set gives the user the flexibility to tailor the weight to their needs, depending on the type of lift they are performing. But what really makes this set special is the Olympic bar that accompanies it, the VTX GOB-1200, one of the most durable, high performing bars we manufacture, making it a good fit for the serious home gym owner to the more demanding athlete training for a competition. A pair of Olympic spring collars (TOZC-1/2) completes the set.
