<u>Sleeve Attached</u> Dual "O" Rings	

FEATURES & DETAILS

Our best 7 ft international, "beater" bar has a large 32 mm shaft, giving it a tensile strength equal to that of a much more expensive power bar. Bronze bushings allow it to spin freely, making it ideal for Olympic lifts such as dead lifts, cleans and snatches. Each end is secured by dual snap rings, a feature often found on the highest performing Olympic bars. The entire bar (sleeves included) is coated with a hard chrome, flake free finish that inhibits rust.

WARRANTY INFORMATION

VTX products come with a full 1-year warranty against manufacturer defects or breakage. This 1-year warranty does cover in a light commercial setting. Rubber products may carry a slight odor. This odor should be considered normal and will not be covered under warranty.
