FEATURES & DETAILS

Our VTX 7 ft men's training bar is the strongest, most versatile bar we have ever manufactured. The bar has tested out at 270,000 P.S.I. Its 28.5 mm shaft features a precision patterned knurl with dual marks for both Olympic and powerlifting. Bronze, self-lubricating bushings give it great spin while double snap rings safely secure each end to the bar. Extra long bar sleeves (over 16 in.) permit maximum loading for the heaviest lifts.

WARRANTY INFORMATION

VTX products come with a full 1-year warranty against manufacturer defects or breakage through improper use by the end-user in light commercial setting. This 1-year warranty does cover in a light commercial setting. Rubber products may carry a slight odor. This odor should be considered normal and will not be covered under warranty.
