FEATURES & DETAILS

Our sleek 6 1/2 ft, 15 kg women's training bar has a 25 mm bar shaft that is easier to grip and control that is specifically designed for functional training. Despite its smaller diameter, it has an extremely strong yield strength that provides plenty of desired "whip." The shaft has an attractive patina (copper) color which contrasts well with hard chrome sleeves to give it a distinctive look, while being fastened securely with dual snap rings for consistent, reliable performance.

WARRANTY INFORMATION

VTX products come with a full 1-year warranty against manufacturer defects or breakage through improper use by the end-user in light commercial setting. This 1-year warranty does cover in a light commercial setting. Rubber products may carry a slight odor. This odor should be considered normal and will not be covered under warranty.
